FORT WALTON BEACH

MONTESSORI

LEARNING CENTER

The Montessori Learning Center of Fort Walton Beach (MLC) has proudly provided quality early childhood education to the area since 1978. Guided by a robust demand in the local area for continued education in the Montessori Method and profound support from generous local sponsors, our school began an expansion into lower elementary in 2017 that continues to present day. We are thrilled to now offer grades Pre-K3 through 3rd grade for the 2019-2020 school year. Our student body and staff has nearly doubled since expansion began two years ago. **Building a dedicated, tailor-made campus that would accommodate the Pre-Ks through the 6th grade is now our primary and urgent goal.** Support from local sponsors like you is a critical step toward the successful completion of this expansion.

Within our community, the high academic standards of MLC are established and highly regarded. The Montessori Method provides unmatched flexibility and accommodationto a vast array of unique learning styles and speeds, transforming the "work" of education into a self-driven joy and desire to learn for the child. Scientific studies comparing Montessori to a traditional education have proven Montessori students to be more interested in learning, more self-disciplined, and more creative. Montessori students outperform their peers on standardized testing and are more likely to go to college than peers exposed to a traditional educational method. MLC's resolute academic goal is to provide each student with a Montessori-based education that rivals the best Montessori schools in the nation.

"Providing a Montessori-based education for the development of the whole child, creating a lifelong foundation for learning." – MLC of Fort Walton Beach, Mission Statement
